**SOUTH SEA PRINCESS
TO BE MARRIED HERE**
NEW YORK, June 14.—Ouille, "sweetest flower of all the land," an American girl, crown princess of the cannibal islands in the South Seas, is going to be married at noon next Wednesday. She will take as her prince Consort J. Hobart Holcomb, of Palenville, N. Y.
Ouille's American name is Ethel Hobbs and her father and mother come of old patriotic stock. Ouille has never seen the Cannibal Islands, nor heard the tom-tom of the war dance that announced her arrival and her birthday celebrations as the years went by.
Her father, Col. John F. Hobbs, hero of half a dozen wars, newspaper correspondent and king of the Cannibal Islands, started it all.
In 1890 Colonel Hobbs was shipwrecked off the coast of the New Hebrides Islands, the home of one of

the most dangerous man-eating savage tribes in the world. Because of his strange arrival the natives feared to injure him, and he was adopted by the king of the island of Illika.
When the king died Colonel Hobbs was made the Oumalle or king. With orgiastic festivals and wild primitive dances of joy he was inaugurated into the office never held by white man.

**LODGE SEES PEACE
AND U. S. IN UNION
OF NATIONS SOON**
Compromise of Knox and Porter
Resolutions Expected—Fear
Move Toward League.
By J. BART CAMPBELL,
International News Service.
Termination of the technical state of war between the United States and the Central Powers will not be delayed much longer by the inability of Senate and House Republicans to agree upon the form of a peace resolution. Senator Henry Cabot Lodge, Republican leader of the Senate and chairman of the Senate Foreign Relations Committee, indicated today.
Early re-establishment of a genuine peace basis is bound to come soon, it was stated, and the most problems involved in bringing about actual peace between the United States and the Central Powers and the formation of an "association of nations" advocated by President Harding, may go hand in hand.
It was pointed out that Senator Lodge has repeatedly predicted the probability of the Administration entering into negotiations with Germany and Austria for separate treaties of peace as a logical sequence to Congressional action to end the technical state of war. Senator Lodge conferred recently with Secretary Hughes, and it is understood Senate Republican leaders are of the opinion that the Administration may be expected to communicate to the Senate soon some definite world peace program.
Fears are known to be entertained by some "irreconcilable" Republican Senators that certain members of the President's Cabinet are seeking to "ease us into the League of Nations," as one of them expressed it but these fears are apparently not shared by other Republican Senators opposed to what the term the "Wilson League" who declare they are confident the President will refuse to have anything to do with the league as originally constituted.
A compromise peace resolution may be the upshot of the controversy between Senate and House Republicans over the Knox-Porter measures when they are sent to conference. It was pointed out that the conference of whom Senator Lodge will be one, will have powers sufficiently large to permit them to modify or redraft either resolution so as to pave the way between Senate and House Republicans for an agreement on the points at variance.
Senator Lodge, as soon as the Porter substitute for the Knox resolution is received by the Senate, will move that the Senate disagree with it and that the Porter resolution, which is in reality an amendment to the Knox measure, be sent to conference with the latter.
It is expected that the House may take longer than the Senate to send the resolutions to conference, but the hope is entertained that the conferees will soon get down to the difficult task of adjusting their differences. A deadlock is feared by some Republican Senators and Congressmen, but Senator Lodge is understood to entertain the belief that the "situation will right itself in the end."

**ANGLO-AMERICAN UNITY
IS KEYNOTE OF ROTARY**
EDINBURGH, June 14.—Anglo-American unity was the keynote when the international convention of Rotary clubs opened here yesterday. The hall was decked with English and American flags, as well as the flags of other countries represented. English and American songs were sung and the mention of prominent Americans and Englishmen brought forth bursts of cheers.
The convention was called to order by T. D. Hunter, of Edinburgh. Albert S. Adams, of Atlanta, Ga., responded to the address of welcome. Other speakers were Estes Sned-

den, of Portland, Ore., and Alexander Wilkie, of the British Rotary Association. Several American cities will make a hard fight for the next convention.
**HORRID ROBBERS TAKE
\$300 IN HER STOCKING**
CHICAGO, June 14.—The original "first national bank" has been robbed. Police today were searching for three ruthless bandits who held up and robbed Mrs. Stella Vogel of \$300 in her candy shop on Irving Park boulevard. The money—er—was hidden in a little silk bank.
They located my \$300 in my stocking," she told police. "I don't think they were very nice."

**YEAR PASSES WITHOUT
SOLVING ELWELL CRIME**
NEW YORK, June 14.—Saturday was the anniversary of the murder of Joseph Bowne Elwell, bridge whist expert and turfman, who was found in his apartment in the early morning of June 11, 1920, dying of a bullet wound in the forehead. After a year's investigation by the district attorney's office and the police, the crime remains unsolved.
Elwell was well known for his skill as a bridge player, and he gambled not only with cards, but with horses and with women's affections also.
The evening before his death Elwell dined and danced at the Ritz-Carlton, and then visited the New Amsterdam Theater. Elwell left his companions at 2 a. m. His housekeeper found him dying in his apartment at 244 West Seventieth street, at about 8:30 a. m. The revolver with which Elwell was killed was not in the room when the police searched it. When the housekeeper discovered the body of Elwell it was clad in pajamas, reclining in an armchair.
**CANADA'S WHEAT CROP
GREATEST IN HISTORY**
OTTAWA, Ont., June 14.—A freight train 1,508 miles long would be required to haul Canada's last year's wheat crop of 263,189,000 bushels, according to a statistician. The train would consist of 197,392 cars loaded to capacity and would extend from Montreal to Winnipeg with 106 miles over. Allowing thirty-five cars to a locomotive, it would require 5,640 locomotives to haul this total number of cars and the 5,640 separate trains running at five minute intervals would take nineteen and one half days to pass a given point.
